COVID-19 UPDATE

Bennett Printing & Graphics has been declared an Essential Business Service during COVID-19.

Reliable partnerships have never been more important. We want you to know that Bennett Printing remains fully operational and is here to support both the essential and non-essential businesses that keep our city running.

We are prepared to take on projects of all shapes and sizes, while keeping the health and safety of our team members and customers the top priority. Both our supply chain and employee commitment is 100% secured and focused on helping you keep things going. Whether you're working from home, the office or in the field, we are here to support you.

Bennett Printing is committed to helping our community navigate these challenging times. Don't hesitate to turn to us for your print solutions.

During these extraordinary times when social distancing is the order of the day, we have stepped up our services to include virtual proofs as well as video proofs.

In addition we have streamlined the approval process. A simple "APPROVED" in the subject line is all that is required in response to the Virtual Proof you will receive.

Of course, we are happy to ground ship hard proofs to your location if so desired.

Stay Safe and Stay Well.

MaryAnn Selva, Owner
Bennett Printing & Graphics
